The simplified version of Robins & Morton’s founding states that Todd Robins started the company in 1946 with the construction of a gas station in Birmingham, Alabama.

Yet, like all great stories, the journey was far more nuanced and the timeline wasn’t quite as defined. Although Robins was an engineer by trade, he was known for so much more — he was an entrepreneur, a businessman, and a trusted friend, as well as a devoted husband and father. Seventy-five years later, the company that carries Robins’ name still reflects his family-centric views, drive to succeed and innovative spirit.

We’ve been called Robins Engineering, The Robins Corporation, and Robins & Morton, but our values remain the same. Safety, Integrity, Excellence and Client-Focus have served as our guideposts through trials and success, growth and change.

In 2021, Robins & Morton is known for its quality project delivery for clients, its commitment to learning and its desire to continuously improve.

As the company celebrates its 75th anniversary, we are reminded that great beginnings can start small — even as small as a corner gas station.

Throughout the year, we’re sharing stories that dive into pivotal moments in our history.

Follow along with us by scanning the QR code here.
This year has started with an increase in new business, especially in the healthcare market. Normally at this time, it is difficult to forecast sales growth or reaching our sales goals. I am happy to report that we can already forecast sales this year of $1.5 billion against our goal of $1.2 billion. We are working hard to meet or exceed this goal by the end of the year through our ongoing efforts and increased internal resources to support our scheduling efforts. There will be more information issued on this within the next 12 months. This will hopefully make our team planning tool more effective at the higher level of the company. We currently have a plan in place but need to focus on the training and development of our people to facilitate those plans.

Our experience this year has taught us that by looking at these initiatives in a strategic way, they will quickly can create confusion and disorganization. We hope to tackle over the next 12 months. This will hopefully make our team planning tool more effective at the higher level of the company. We currently have a plan in place but need to focus on the training and development of our people to facilitate those plans.

We are currently projecting revenue of $1.5 billion against a goal of $1.2 billion. We are working hard to meet or exceed this goal by the end of the year through our ongoing efforts and increased internal resources to support our scheduling efforts. There will be more information issued on this within the next 12 months. This will hopefully make our team planning tool more effective at the higher level of the company. We currently have a plan in place but need to focus on the training and development of our people to facilitate those plans.

I recently met with a team planning tool to help balance some of the needs of our people at the job site level. Your operations manager will be meeting with you soon to formalize this on our projects. The Family Table initiative is organized and has formed a working group with a formal onboarding occurring in the next 30 days. Expect forward momentum in our diversity and inclusion efforts as a result of this initiative. The updating of our Policies and Procedures is well underway with some expected to be rolled out in the third quarter of this year. We know this would be a challenging task that has proven to be a sizable undertaking for several of our SPG members. This is important to support operations at all levels of the company in a systematic and structured way.

We have also recently made some equitable changes to our travel and living expense policy which will be rolled out in the second quarter of this year. These changes will hopefully make this important part of our people’s needs more simple and better organized. Lastly, we will be rolling out a revised schedule program in the company that is a result of changes in the industry and the more specific needs of our clients. This change will include the issuance of revised and enhanced schedule policies and the development of more internal resources to support our scheduling efforts. There will be more information issued on this within the next 50 days.

In the coming months, we will begin to ramp up actions on some newly identified initiatives. Career planning and development will be an important issue to address in the coming year. Under the leadership of our HR team and with input from the SPG, we will develop simple but effective tools and provide better communication and monitoring in this area. We will also focus on our hiring practices, recruiting and a better methodology for projecting our needs to support future sales. This obviously will be a critical factor in our ability to continue to grow and provide more opportunities within the company.

The subject of alternative delivery initiatives such as prefabrication and modular construction will be studied to determine to what extent we should integrate them into our services and projects. The industry is obviously moving towards more efficient approaches to construction and we need to develop this in ways that it makes sense for us. We will take a more focused look at cost efficiency and profitability, including training sessions for our management personnel, in the next 12 months. This will hopefully make us more competitive and give our clients a better value.

Lastly, we will be reviewing succession planning at all levels of the company. We currently have a plan in place but need to focus on the training and development of our people to facilitate those plans.

You may have noticed that specific initiatives related to sales, expansion, and revenue are absent from the list above. Our approach to growth is centered around taking care of the personnel, in the next 12 months. This will hopefully make us more competitive and give our clients a better value.

We are working hard to meet or exceed our goal of $1.5 billion against a goal of $1.2 billion. We are working hard to meet or exceed this goal by the end of the year through our ongoing efforts and increased internal resources to support our scheduling efforts. There will be more information issued on this within the next 12 months. This will hopefully make our team planning tool more effective at the higher level of the company. We currently have a plan in place but need to focus on the training and development of our people to facilitate those plans.

As we enter the second year of the COVID-19 pandemic, I want to thank you for your continued focus on satisfying our clients, while at the same time adhering to the virus protocols that kept our projects safe and operational. We managed to both prevent any serious issues for our people and were able to meet the needs of our clients. Note that the vaccine is becoming widely available, maybe by the summer we can begin to return to some level of normality. With the difficult year of 2020 behind us, I am looking forward to 2021 being the best year in our history.

Our NEW AND IMPROVED HQ

At Robins & Morton, we think of our team members as family. As our family has grown, so has the need for a larger, more purposeful space. To us, this didn’t simply mean adding more square footage. We needed more than an office. We needed a place that inspires creativity, sparks innovation and sets the standard for a collaborative workplace.

Today, the upgrades to our home base feature more community spaces, an innovation lab, more conference space, an expanded training center, and flexible working spaces for our team members who aren’t based in Birmingham.

Community space
There’s something to be said for the benefits of a change of scenery. Feeling stuck on a problem or task? Take a seat in the coffee bar or one of the sunshine-filled community spaces. And until the pandemic is behind us, stuck on a problem or task? Take a seat in the coffee bar or one of the sunshine-filled community spaces. And until the pandemic is behind us,

Learning like never before
Of the many spaces that got a face lift, we’re particularly proud of the new training center. Since your professional development continues to top our list of priorities, we expanded the training center and added the latest in virtual reality equipment.

Innovation lab
Ready to bring your ideas to life? From 3D printing to other virtual technology, the innovation lab is equipped for all things out-of-the-box.

Collaboration spaces
In addition to a new conference room, we’ve added five new huddle spaces. In total, there are now 12 collaboration spaces across the office. Since 1940, we’ve been proud to call Birmingham home. We hope you are too.

2021 PERFORMANCE INDICATORS

As we enter the second year of the COVID-19 pandemic, I want to thank you for your continued focus on satisfying our clients, while at the same time adhering to the virus protocols that kept our projects safe and operational. We managed to both prevent any serious issues for our people and were able to meet the needs of our clients. Note that the vaccine is becoming widely available, maybe by the summer we can begin to return to some level of normality. With the difficult year of 2020 behind us, I am looking forward to 2021 being the best year in our history.
100% Customer Satisfaction for 2020

Robins & Morton is proud to give our clients world-class customer service — the kind that cultivates long-lasting relationships. At the end of every project, a third party surveys each client on preconstruction activities, construction activities, post-construction activities, miscellaneous comments and overall ratings, and we have maintained an overall average of 94% since the inception of this survey in 1993. Congratulations to the project teams featured below that received 100% results on their customer satisfaction client surveys in 2020.

First Coast Orthopedic Center Jacksonville, Florida
Buildout of 10-bed Ambulatory Surgery Center
• Start Date: May 2020
• End Date: March 2020
• Cost: $3,225,000
Team Members:
John Pasier, Todd Osborne, Andy Kleinsteuber, Jake Holland, Paul McKee, Michael Ard, Todd Gosssett, David Biddy, Dwayne Jackson, Heidt Marty, Donny Williams

Comments:
“The project went outstanding. I was concerned with a company the size of Robins & Morton and us not being a priority. I’ve been in the business 35 years and done 100 projects, and I can’t tell you of a better contractor than Robins & Morton. I’ve never been happier.”

Charles Smyth, Market Street Development

Northwest Health - La Porte Hospital La Porte, Indiana
80-bed Replacement Hospital
• Start Date: September 2018
• End Date: December 2020
• Cost: $41,272,000
Team Members:

INDUSTRY LEADER AWARDS

Central Station Hotel earns Reconstruction Award
In late 2020, Building Design + Construction magazine named Robins & Morton’s Central Station Hotel project in Memphis, Tennessee, a bronze award winner in their annual Reconstruction Awards program. The program’s goal is to find the best reconstructed, remodelled or renovated projects based on design, engineering and construction quality.

The project was recognized for its historical significance and the project team’s commitment to maintaining the integrity of that history.

Robins & Morton receives three national Excellence in Construction Awards
At the Associated Builders and Contractors (ABC) Excellence in Construction Award Gala, Robins & Morton won three National Excellence in Construction Awards in the healthcare and institutional categories on March 10.

The Chandler Center for Environmental Studies at Wofford College in Spartanburg, South Carolina, and the Miami Beach Convention Center Alternate Care Facility in Miami Beach, Florida, won Eagle awards – equivalent to first place, Cherokee Indian Hospital’s Phase II Behavioral Health and Crisis Stabilization Unit won a Pyramid Award, which is equivalent to second place.

THE 2021 ROCKY McMICHEN FIELD LEADERSHIP PROGRAM GRADUATION

On March 9, nine people graduated from the Rocky McMichen Field Leadership Program. The socially-distanced ceremony took place in the Todd Robins Training Center in the Birmingham office, with options for other team members to tune in virtually.

The ceremony began with a welcome from Superintendent and Program Director Jason Bennett and Chairman/CFO Bill Morton. Next, both Bennett and former Senior Vice President Rocky McMichen acknowledged the mentors and gave veteran advice to the graduates. The keynote, given by Division Superintendent Charles Miller, was the final speech before the trainee commencement. Below are the names of the nine graduates and their mentors. Congratulations to this group that persevered through the program in the difficult circumstances of last year.

A COMPANY-WIDE CELEBRATION IN HONOR OF 75 YEARS

On April 8, Robins & Morton’s leadership team officially kicked off the company’s 75th anniversary celebration with a virtual town hall. In the hour and a half event, leadership addressed the importance of culture, people, organic growth and a commitment to future generations.

“Our anniversary gives us an opportunity to reflect on the past. It’s also given us a chance (to look back on) my family history,” said Chairman and CEO Bill Morton.

A pivotal moment in our history

The first question led Morton, President/COO Robin Savage and Vice President of Operational Support and Planning Mike Thompson into a discussion about one of the most pivotal moments in the company’s history. In the ’90s, an impactful client relationship led what was then The Robins Corporation to begin working in healthcare construction.

The company’s commitment to quality was a perfect match for the rigorous of healthcare work, and by the end of the decade, Robins & Morton ranked among the Top General Contractors by Modern Healthcare magazine.

Impact on the company: Building Forward

The panelists also discussed the importance of our Building Forward® approach and its impact on our culture.

“Building Forward brings a positive approach to management and everything we do in the company,” said Savage, adding that it “embraces the four tenets — Collaboration, Continuous Improvement, Leadership Development and Creating a Learning Culture.”

“It can’t fail.

The value of strategic, organic growth

Morton and Savage said the company will continue to focus on strategic regional growth and diversification, based on relationships and led by Robins & Morton people who understand our values.

“It’s a pattern the company has followed since establishing the Nashville office in 1972, through our soon-to-open Tampa location.”

“We’ve averaged 10% growth for the last 50 years,” said CFO Ben Leaver. “It really hits home what strategic and organic growth means. As we’ve opened additional offices and expanded regionally and organically, we’ve seen our revenue grow.”

With our company already tracking to exceed our 2021 sales goal, Morton pointed out the continued importance of repeat business.

“We have a good opportunity to get a record sales year,” said Savage, adding that if we “can hold on and make sure of that lead from repeat clients,” he said, “This is a testimony to what you’re doing every day: taking care of our clients. Thank you for that.”

Addressing Diversity and Inclusion, family-style

Thompson announced that the Family Table, developed to address diversity, equity and inclusion will have its first meeting at the end of the month. “What better way to address these issues than to form a family table and have a diverse group of people challenge each other just like you do at a family dinner,” he said.

“We truly realize the value of addressing this issue,” said Savage. “It fits with our culture that we need to be diverse, include people and provide equity and opportunity for everybody.”

A commitment to future generations

Looking to the long-term future, Morton said, “We are preparing the company for the next generation.” That includes succession planning and developing leaders. “It’s important for us to invest in people so that the company be here for future generations.”

“A toast to our people and 75th anniversary

Morton concluded the town hall by recognizing that our people differentiate Robins & Morton. “Our people care as much about the project as our client does. That’s a true testament to what makes us unique,” he said. “Happy 75th anniversary and thank you for helping us get there.”
In honor of Veterans Day, Robins & Morton’s Government Services Division assembled care packages for a deployed Air Force unit in November. Throughout November, Huntsville project teams and the office donated more than 1,500 food items to the Downtown Rescue Mission in Huntsville, Alabama.

In November, the INTEGRIS Health Edmond project team in Edmond, Oklahoma, partnered with a local church and donated 350 pounds of food to the Project 66 Food & Resource Center.

In November, the Robins & Morton Miami office and Joe DI Maggio project team attended the Diamond Angels Celebrity Virtual Wine Tasting, benefiting Joe DI Maggio Children’s Hospital.

In Miami, Florida, the University of Miami Health project team donated gifts to the first annual ‘Canes Holiday Week, organized by the UHealth Pediatric Mobile Clinic in December.

In November, the Robins & Morton Charleston office volunteered at the Samaritan’s Purse Operation Christmas Child distribution center, where they put the final touches on 20,000 shoebox gifts to be delivered around the world.

In December, Robins & Morton project teams and its office in Huntsville, Alabama, collected more than 40 toys for their annual Marine Toys for Tots Foundation toy drive.

The University of Miami Health project team supported the Fundación de la Calle in December by preparing 50 bags of essential toiletries for the local homeless community in need.

In Spartanburg, South Carolina, Robins & Morton’s office and local project teams partnered with clients, trade contractors and community member to deliver more than 50 toys to the Marine Toys for Tots Foundation.

In Miami, Florida, the University of Miami Health project team donated gifts to the first annual ‘Canes Holiday Week, organized by the UHealth Pediatric Mobile Clinic in December.

In the Miami office, the Robins & Morton Charleston office volunteered at the Samaritan’s Purse Operation Christmas Child distribution center, where they put the final touches on 20,000 shoebox gifts to be delivered around the world.

**Through A Soldier’s Child Foundation and their S.O.S. Christmas program, the Robins & Morton Nashville office provided gifts for eight children in December. The office also provided gifts for two seniors through the St. Jude Community House Adopt-A-...**
Floors are on top of the existing four-floor facility and it now has surgical suites and an intraoperative MRI. The four new patient rooms, two cardiac hybrid operating rooms, two intensive care units, inpatient rehabilitation, and a cardiovascular imaging area are a part of the scope.

Once all work is complete in the fall of 2022, the four-story patient tower addition at South Texas Health System Edinburg, Texas, on Dec. 17, broke ground on a new, five-story patient tower addition in Edinburg, Texas. The 150,000-square-foot facility will house an emergency department, imaging, a cardiac lab, a clinical lab, an intensive care unit (ICU), inpatient rehabilitation, and a medical/surgical unit. A 20,000-square-foot renovation is also part of the scope.

The tower is set to complete in mid-2022.

**Project Milestones**

**Robins & Morton celebrates Christmas tree lighting**

**Birmingham, Ala.**

Robins & Morton virtually celebrated their third annual Christmas Tree Lighting at their Birmingham office. The 30-foot Frasier Fir weighed 2,000 pounds, took five people and three days to install, and was adorned with 30,000 mini LED lights, including a three-foot wide star.

**Redstone Federal Credit Union opens**

**Huntsville, Ala.**

Redstone Federal Credit Union, Robins & Morton and KPS Group celebrated the grand opening of Redstone Federal Credit Union in Huntsville, Alabama, in December. The 65,559-square-foot building stands five stories and includes a rooftop terrace and community room. Robins & Morton also constructed a four-story parking deck adjacent to the building.

**South Texas Health System Edinburg patient tower addition breaks ground**

**Edinburg, Texas**

South Texas Health System broke ground on an expansion to Hunt Regional Medical Center in Greenville, Texas, on Feb. 23. The two-floor, 31,000-square-foot expansion will house Hunt Regional’s women’s and surgical services, featuring 21 new patient rooms. The project also includes a 27,000-square-foot renovation of the obstetrics facility.

The surgical center expansion will allow for continued growth in new providers and services, Hunt Regional has experienced a 38% increase in surgery cases over the past three years, and endoscopy suites currently operate at 100% capacity.

Robins & Morton and Hunt Regional Healthcare broke ground on the Mid-City Amphitheater in Greensville, Texas, on Feb. 23.

The two-floor, 31,000-square-foot expansion will house Hunt Regional’s women’s and surgical services, featuring 21 new patient rooms. The project also includes a 27,000-square-foot renovation of the obstetrics facility.

The surgical center expansion will allow for continued growth and new providers and services, Hunt Regional has experienced a 38% increase in surgery cases over the past three years, and endoscopy suites currently operate at 100% capacity.

Robins & Morton broke ground on 225 Holmes Avenue on Feb. 4. The new five-story office building will offer over 77,000 square feet of much needed Class A office space and ground floor retail opportunity. The 30-foot Frasier Fir weighs 2,000 pounds, took five people and three days to install, and was adorned with 30,000 mini LED lights, including a three-foot wide star.

**Valley Hotel opens**

**Homewood, Ala.**

Robins & Morton and Valor Hospitality celebrated the grand opening of the Valley Hotel on Feb. 16. This 90-room boutique hotel stands five stories. The main level features a café bistro, The Valley Coffee Co., as well as a high-end street level restaurant, Ironwood Kitchen and Cocktails, and The Terrace Bar with outdoor dining. The lobby and lounge along with a separate board room and fitness center are also on the main level. Located on the second floor is 8,888 square feet of flexible meeting and event space.

**Novant Health breaks ground at Novant Health Ballantyne Medical Center**

**Charlotte, N.C.**

Novant Health and Robins & Morton broke ground at Novant Health Ballantyne Medical Center on Feb. 25. The $194 million investment will bring acute care resources to the growing suburban population in South Charlotte.

**Redstone Federal Credit Union, Robins & Morton and KPS Group**

**Edinburg, Texas**

The historic site previously owned by Hall Family Farm will transform into a 38-acre hospital and medical office building offering services including emergency care, inpatient (medical/surgical and intermediate), women’s care (including birthing suites), expanded diagnostic services, and surgical services. Keeping the tradition of community alive, walking trails and space for community events are also being built to ensure continued connection with South Charlotte residents.

**Joe DiMaggio Children’s Hospital tops out**

**Hollywood, Fla.**

Robins & Morton and South Texas Health System Edinburg broke ground on a new, five-story patient tower addition in Edinburg, Texas, on Dec. 17. The 150,000-square-foot facility will house an emergency department, imaging, a cardiac lab, a clinical lab, an intensive care unit (ICU), inpatient rehabilitation, and a medical/surgical unit. A 20,000-square-foot renovation is also part of the scope.

The tower is set to complete in mid-2022.

**Robins & Morton and Ocala Health**

**West Marion Community Hospital**

Robins & Morton and Ocala Health broke ground on West Marion Community Hospital’s inpatient rehabilitation unit on March 24. The nearly 44,500-square-foot, 36-bed expansion will become the hospital’s first inpatient rehabilitation unit. The unit will also feature a gym for physical and occupational therapy, as well as an own dedicated dining area. It is slated for completion in late 2022.

Robins & Morton is serving as the general contractor and Gould Turner Group is the architect.

**Duke Raleigh Hospital team celebrates women in construction**

**Raleigh, N.C.**

In celebration of Women in Construction Week, the project team at Duke Raleigh Hospital held a gathering to discuss challenges and opportunities for women in the industry on Mar. 11. Speakers included Senior Superintendent Mark Gurler, Director of Operations for Duke Health Julie Yamadi, Risk Management Supervisor Gloria Cole, Building Forward Lean Practice Leader Jennifer Lacy, Senior Project Manager for Starr Electric Robin Brummitt, Field Superintendents Christina Smith, Project Engineer Melody Bazzle, Project Assistant Anna Thompson and Senior Project Manager Marshall Scott.

“As women in the industry, it is our responsibility to recruit and encourage young women,” Smith said. “It challenges everyone that the more we can inspire others to get into the industry, the better it will be down the road. Share your stories. It can make a difference.”

**Construction begins on Mid-City Amphitheater**

**Huntsville, Ala.**

In February, Robins & Morton, the City of Huntsville and Huntsville Venue Group began construction on the Mid-City Amphitheater in Huntsville, Alabama. The more than 46,000-square-foot venue will seat 8,000 patrons alongside a food village that will provide amenities year-round. The unique facility will be space for locals and visitors to gather for entertainment and recreation. The amphitheater is scheduled to complete in spring 2022.

**Robins & Morton breaks ground on new rehabilitation unit**

**Ocala, Florida**

Robins & Morton and Ocala Health broke ground on West Marion Community Hospital’s inpatient rehabilitation unit on March 24. The nearly 44,500-square-foot, 36-bed expansion will become the hospital’s first inpatient rehabilitation unit. The unit will also feature a gym for physical and occupational therapy, as well as an own dedicated dining area. It is slated for completion in late 2022.

Robins & Morton is serving as the general contractor and Gould Turner Group is the architect.

EXECUTIVE PROMOTIONS

**BEN LEAVER**, Chief Financial Officer
- In December 2020, Robins & Morton named Vice President of Finance Ben Leaver as the company’s new Chief Financial Officer. Leaver joined Robins & Morton in 2015 after working for a large accounting firm for eight years. Since then, he has served in various leadership roles in our finance department.

**JOHNATHAN PEAVY**, Operations Manager
- Operations Manager Johnathan Peavy has been promoted to Project Director of Construction Services. Peavy has been with the company since 2005, and has contributed to more than $850 million of work in various roles. He is also a leader in the early efforts to bring Lean tools and methodologies to Robins & Morton before the establishment of our Building ForwardSM approach.

**CHRIS MCCALL**, Director of Construction Services
- Chris McCall has been promoted to Director of Construction Services. McCall joined Robins & Morton in 2005 as a Project Engineer. He worked in several onsite roles, managing complex projects. McCall has also worked in a preconstruction role, giving him a global and unique perspective to lead this new effort within Robins & Morton.

**TODD OSBORNE**, Project Director
- Todd Osborne has been promoted to Project Director. Todd has more than 40 years of construction experience and has been with Robins & Morton since 2015. In his new role, Todd will provide coordination with our clients and design partners to ensure both the planning and execution of our projects meet our clients’ objectives.

**CALEB CHANDLER**, Project Director
- Caleb Chandler has been named Promoted to Project Director. Caleb has been with Robins & Morton since 2008, serving in a variety of field and project management roles. In his new role, Caleb will provide coordination with our clients and design partners to ensure both the planning and execution of our projects meet our clients’ objectives.
